Microsoft Windows Vista : Level I

Course Specifications

Course number: 085607

Course length: 1.0 day(s)

Course Description

This course is the first in a series of three Microsoft® Windows Vista™ courses. This course will provide you with the basic skills you need to get started with personal computers and work with the various features, tools, and options available in Windows Vista. In this course, you will familiarize yourself with the basics of personal computers, customize Windows Vista, and manage file and folders. You will also work with simple tools and browse the Internet.

Course Objective: You will use a personal computer loaded with Microsoft Windows Vista to help you acquire the latest skills in computers.

Target Student: This course is designed for any knowledge worker, business professional, or private individual who needs to use entry-level Windows Vista computer skills in a business or personal environment.

Prerequisites: There are no prerequisites for this course.

Delivery Method: Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.

Performance-Based Objectives

Upon successful completion of this course, students will be able to:

- identify the basic components and capabilities of personal computers.
- explore Windows Vista.
- customize the Windows Vista desktop.
- use common tools and programs available in Windows Vista.
- manage folders and files.
- browse the Internet using Internet Explorer 7.0.
